## **I. PRELIMINARY STATEMENT**

1. This complaint is filed by *Champion Women*, pursuant to Title IX of the Education Amendments of 1972, 20 U.S.C. § 1681 *et seq.* (“Title IX”) and the regulations and policies promulgated thereunder. *See* 34 C.F.R. § 106 *et seq.* Title IX prohibits discrimination on the basis of sex in federally funded education programs and activities, including athletics.

2. *Champion Women* is a 501(c)(3) that provides legal advocacy for girls and women in sports.

3. As detailed in the Factual and Legal Allegations below, data submitted by Old Dominion University, (“Old Dominion”) to the Office of Postsecondary Education of the U.S. Department of Education pursuant to the Equity in Athletics Disclosure Act (“EADA”), 20 U.S.C. § 1092, as well as information collected from Old Dominion’s website indicates that Old Dominion is discriminating on the basis of sex by providing women with unequal athletic participation opportunities, unequal athletic scholarship dollars, and unequal treatment and benefits, including athletic recruitment funding.

4. In order to address these disparities, *Champion Women* requests that the Office for Civil Rights (“OCR”) investigate Old Dominion to determine whether it is discriminating against women; is it providing women equal opportunities to participate in varsity sports, equal opportunities to earn athletic scholarships, and equivalent treatment and benefits, including recruitment funding as required by Title IX and, if not, to remedy any unlawful conduct.

## **II. JURISDICTION**

5. The OCR is responsible for ensuring compliance with Title IX and receiving information about, investigating, and remedying violations of Title IX and its implementing regulations and guidelines. 34 C.F.R. §§ 106.71, 100.7.

6. *Champion Women* has not filed this complaint with any other agency or institution.

7. As Old Dominion currently violates Title IX’s athletic equity requirements, this complaint is timely.

## **III. FACTUAL ALLEGATIONS**

8. Old Dominion receives federal financial assistance and is therefore prohibited from discriminating on the basis of sex pursuant to Title IX.

9. Data submitted by Old Dominion to the U.S. Department of Education pursuant to the EADA that is publicly available on the Office of Postsecondary Education website for

academic years 2003-04 through 2021-2022 indicates that Old Dominion is not currently and has not in the past been providing female athletes equal opportunities to participate in athletics under Title IX’s three-part participation test.

Year	Undergraduate Enrollment				Men	Women Prong 2: This # should Rise Continuously and Steadily Over Time, Without Going Backwards	Athletic Participation		
	Men	Women	Total	Percent Women			Total	Percent Women	Female Athletes Who Would Need to be Added to Achieve Equity
2003-04	4139	5618	9757	57.58%	165	139	304	45.72%	85
2004-05	4370	5865	10235	57.30%	137	125	262	47.71%	59
2005-06	4580	6248	10828	57.70%	151	137	288	47.57%	69
2006-07	4501	6183	10684	57.87%	153	146	299	48.83%	64
2007-08	4998	6589	11587	56.87%	160	146	306	47.71%	65
2008-09	5824	6930	12754	54.34%	243	186	429	43.36%	103
2009-10	6396	7290	13686	53.27%	287	201	488	41.19%	126
2010-11	6820	7525	14345	52.46%	257	233	490	47.55%	51
2011-12	6936	7655	14591	52.46%	249	211	460	45.87%	64
2012-13	6973	7910	14883	53.15%	257	222	479	46.35%	70
2013-14	7079	7971	15050	52.96%	256	223	479	46.56%	65
2014-15	7100	8114	15214	53.33%	295	232	527	44.02%	105
2015-16	7176	8143	15319	53.16%	289	221	510	43.33%	107
2016-17	7030	8143	15173	53.67%	281	201	482	41.70%	124
2017-18	6805	8216	15021	54.70%	281	210	491	42.77%	129
2018-19	6747	8234	14981	54.96%	274	202	476	42.44%	132
2019-20	6584	8096	14680	55.15%	291	190	481	39.50%	168
2020-21	6452	8273	14725	56.18%	133	165	298	55.37%	6
2021-22	6161	7729	13890	55.64%	257	199	456	43.64%	123

10. *Champion Women* has edited the EADA data on our website <https://titleixschools.com/> in just one instance: to remove male practice players who are counted up in the tally as “women”. These male practice players are not female athletes and have therefore been subtracted from the totals in the EADA.<sup>1</sup>

11. Old Dominion does not and has not provided athletic opportunities to female students in numbers substantially proportionate to their enrollment pursuant to part one of the

<sup>1</sup> See *Champion Women* website for every college and university receiving federal funds: <https://titleixschools.com/2023/05/20/eada-data/> High school data for these schools receiving federal funds is available here: <https://titleixschools.com/2023/06/06/check-your-high-school/>

Title IX participation test. Women are 55.64% of the student body, but just 43.64% of the student-athletes.

12. In 2021-2022, the most recent academic year for which EADA data is available that is not corrupted by disruptions related to Covid-19, Old Dominion's participation gap was 123 athletes. In other words, Old Dominion must add 123 additional athletic opportunities for women in order to provide athletic opportunities substantially proportionate to enrollment; 123 additional opportunities is enough to add almost an entire athletic department; Old Dominion currently only has 199 women athletes. 123 women equate to 3-5 more sports, depending on the sports Old Dominion chooses.

13. The EADA data and evidence gathered on Old Dominion's website show that Old Dominion does not have a history and continuing practice of expanding athletic participation opportunities for women pursuant to Prong 2 of the Title IX participation test. See column "Women" under "Athletic Participation" above. The number of women athletes does not consistently increase over time.

14. Old Dominion's opportunities it has offered women have fluctuated over the 19 years of available EADA data. But significantly, Old Dominion is providing women with the same number of opportunities to compete that it provided women in 2009. In 2014, Old Dominion's high of 232 is now providing women with 33 fewer opportunities to compete in collegiate athletics. From 2009 – 2018, Old Dominion was providing women with more opportunities than it is currently. *Champion Women* cannot know the 28-year history of adding sports between 1975 and 2003, but Old Dominion cannot show a history of continuous program expansion that is demonstratively responsive to the growing interests of women in sport.

15. A review of Old Dominion's website did not show any policy or procedure for adding new sports or elevating existing club sports to varsity status. Nor did it reveal any athletic gender equity plan or any gender equity committee.

16. Old Dominion sponsors 8 men's varsity sports (Baseball, Basketball, Football, Golf, Sailing, Soccer, Swimming, and Tennis) serving 257 men, and 10 women's varsity sports (Basketball, Field Hockey, Golf, Lacrosse, Rowing, Sailing, Soccer, Swimming, Tennis and Volleyball), serving 196 women.

17. Information available on website suggests that the university is not accommodating the interests and abilities of female athletes as required by part three of the Title IX participation test.

18. Old Dominion women participate in club sports for women, including rugby, soccer, rowing, football, field hockey, ice hockey, basketball, baseball, tennis, lacrosse, sailing, volleyball, Ultimate Frisbee, swimming, volleyball, *Campus Recreation*, Old Dominion, 2023 (last visited August 2023). The existence of these women's club teams indicates that there is unmet interest in women's athletics at Old Dominion.

19. Sport Governing Bodies and the NCAA, for member schools, make it very easy to see where other competitors are located. The NCAA publishes the “NCAA Sports Sponsorship and Participation Rates Report, 1956 - 2022” for schools to find competitors within the school’s normal competitive region: NCAA Sports Sponsorship and Participation Rates Report.<sup>2</sup>

20. Old Dominion is a member of the Sun Belt Conference, with members in the NCAA Division I, FBS. North Carolina, South Carolina, Arkansas, Alabama, Georgia, Virginia, Louisiana, West Virginia, Mississippi and Texas. Affiliate members come from West Virginia, Florida, and Kentucky. Old Dominion is lucky in that almost every women’s sport will have willing competitors in this enormous competitive geographic region.

21. The Sunbelt Conference sponsors 4 Championship sports for women that are not offered by Old Dominion: Beach Volleyball, Cross Country, Softball and Track and Field. These championship teams are unique educational experiences. They also demonstrate women’s interest and abilities in these sports and that competition for these women’s sports exists in Old Dominion’s competitive geographic area.

22. Members of the Sunbelt Conference sponsor teams that Old Dominion does not: Bowling and Rifle. These peer-teams demonstrate women’s interest in these sports and that competition for these women’s sports exists in Old Dominion’s competitive geographic area.

23. Girls in Virginia offer girls many opportunities in sports:  
<https://www.nfhsnetwork.com/states/VA>

The Virginia High School Athletic Association provides girls with Badminton, Fencing, Snowboarding, Gymnastics, Softball, Track & Field, and Wrestling is also popular:

Collegiate Water Polo - <https://collegiatewaterpolo.org/>

Collegiate Women’s Gymnastics <https://www.ncaa.com/sports/gymnastics-women>

<https://www.virginiawrestling.com/girlsrankings>. Old Dominion does not sponsor any of these sports for women.

Virginia's high school athletes have very few opportunities to compete in college sports, and even fewer opportunities in Division I. According to the NCAA,<sup>3</sup> in 2020, only 1.3% of high school girls basketball players nationally were provided the opportunity to play in Division I. Just 2.9% of high school Field Hockey players, 2.8% of Golfers, 8.9% of Ice Hockey players, 3.7% of Lacrosse players, 2.4% of Soccer players, 1.8% of Softball players, 3.3% of Swimmers, 1.5% of Tennis players, 2.8% of Track & Field athletes, 1.2% of Volleyball players in high school nationally are provided opportunities to play their sport in Division I.

Old Dominion University recruits its student body and its athletes from the whole country and internationally.

High school-age girls in Virginia and in the Sunbelt competitive geographic region compete also compete in club sports like Basketball, Soccer, Golf, Tennis, Track & Field, Soccer, Volleyball, Wrestling, Badminton, Table Tennis, Team Handball, Sailing, Field Hockey, Fencing, Swimming & Diving, Skateboarding, Water Polo, Archery, Field Hockey, Rifle, Triathlon, Ice Hockey, Sport Climbing, Artistic Swimming, Skiing, Snowboarding, Gymnastics, Rowing, Rugby, and all sorts of combat sports, like Judo, Karate, and Taekwondo, to name a few.

These metrics demonstrate that women have the athletic skills, and they have expressed enormous demand to compete in sports; demand that is unmet.

24. Women's Wrestling, Rugby, Equestrian, and Triathlon are NCAA emerging sports. There are 163 college women's Wrestling programs, 42 NCAA schools sponsor Triathlon, 26 colleges sponsor women's varsity Equestrian, and at least 32 colleges currently sponsor women's varsity Rugby.

25. A review of the Old Dominion website does not reveal that Old Dominion undertook any athletic interest surveys or other research into interest and competition to support the addition of women's varsity sports. While surveys are never sufficient to deny women sports opportunities, they are often helpful in determining *which sports* the school should add.

26. The failure to provide women with equal opportunities to play impacts the availability of athletic scholarship dollars for women. These are important sources of funding for educational attainment that women are being denied because of their sex. If Old Dominion provided its male and female students with the same opportunities to participate, Old Dominion would need to add **\$2,835,451 additional** athletic scholarship dollars, to balance out the amount Old Dominion provides to its male students.

27. If, for some reason, the OCR determines that Old Dominion is, in fact, not discriminating against women in providing opportunities in sport, then Old Dominion would still

---

<sup>3</sup> NCAA: Estimated Probability of Competing in College Athletics:  
<https://www.ncaa.org/sports/2015/3/2/estimated-probability-of-competing-in-college-athletics.aspx>

need to provide its women students participating in sports with **\$54,477** more in athletic scholarship aid, to match the amount Old Dominion provides its male athletes.

28. Old Dominion's EADA data further indicates that the university provides inadequate and unequal funding for recruitment of female athletes. In 2021-2022, Old Dominion spent \$522,393 on men's recruitment and only \$167,563 on women's recruitment; women were allocated only 24.29 percent of the recruiting budget even though they account for 43.64 percent of the athletic population and 55.64 percent of the full-time undergraduate population. If Old Dominion respected women's sports like it does men's, women's teams – and women's coaches – would have an *additional* **\$487,781** in recruiting dollars for women's teams.

29. If, for some reason, the OCR determines that Old Dominion is, in fact, not discriminating against women in providing opportunities in sport, Old Dominion would still need to provide its women's sports teams – and women's coaches – with **\$130,961** more recruiting dollars in order to be consistent with the school's investment in men's sports.

#### IV. LEGAL ALLEGATIONS

30. Title IX provides that “[n]o person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of or be subjected to discrimination under any education program or activity receiving Federal financial assistance.” 20 U.S.C. §1681(a).

31. Title IX regulations prohibit athletic programs from discriminating on the basis of sex in interscholastic, intercollegiate, club or intramural athletics offered by the institution. 34 C.F.R. §106.41(a) (2000).

32. Title IX regulations require institutions that offer athletics programs to provide equal athletic opportunities to members of both sexes to participate in athletics. 34 C.F.R. §106.41(c)(1).

33. Pursuant to the 1979 Title IX Policy Interpretation, compliance with Title IX's equal athletic participation requirement is measured by determining whether the educational institution meets one part of the following three-part test:

1. Prong 1: Whether intercollegiate level participation opportunities for male and female students are provided in numbers substantially proportionate to their respective enrollments; or
2. Prong 2: Where the members of one sex have been and are underrepresented among intercollegiate athletes, whether the institution can show a history and continuing practice of program

expansion which is demonstrably responsive to the developing interests and abilities of the members of that sex; or

3. Prong 3: Where the members of one sex are underrepresented among intercollegiate athletes, and the institution cannot show a history and continuing practice of program expansion, as described above, whether it can be demonstrated that the interests and abilities of the members of that sex have been fully and effectively accommodated by the present program.

United States Department of Health, Education, and Welfare, Office for Civil Rights, *Policy Interpretation; Title IX and Intercollegiate Athletics*, 44 Fed. Reg. 71413 (Dec. 11, 1979) [hereinafter *Policy Interpretation*].

34. In determining substantial proportionality under part one of the three-part test, OCR considers the number of opportunities that would have to be added to achieve proportionality and whether it would be sufficient to support another team. If there are a significant number of unaccommodated women, it is likely that a viable sport could be added and therefore the institution has not satisfied part one of the three-part test. United States Department of Education, Office for Civil Rights, *Clarification of Intercollegiate Athletics Policy Guidance: the Three-Part Test* (Jan. 16, 1996) [hereinafter *1996 Clarification*].

35. In 1975, schools were given three years to be in compliance with the equal participation mandate under Title IX. Schools had only one year to end sex discrimination in all other areas of Title IX's non-discrimination mandate. Only athletics gave schools three years to add athletic opportunities and to stop discriminating against women – or until 1978. That deadline passed 45 years ago. 34 C.F.R. §106.41(d).<sup>4</sup>

It is worth noting how odd Prong 2 is as a legal test, in comparison to other non-discrimination civil rights. For a school to be able to argue that it is still playing catch-up with non-discrimination – exists nowhere else in law. This is especially true 51 years after the passage of Title IX, and 48 years after the passage of the regulations OCR depends on, regulations that were passed by Congress. When a school uses Prong 2, it is admitting that it is not providing women with equal educational opportunities, but that their actions are acceptable, because the school is “improving.” Title IX's Prong 2 allows schools to provide girls and women with less.

36. Therefore, it is understandable that Prong 2 is a very strict test. In determining whether an institution has a history and continuing practice of expansion under Prong 2 of the three-part test, OCR reviews the entire history of the athletic program and evaluates whether the

---

<sup>4</sup> 34 C.F.R. §106.41(d) “*Adjustment period.* A recipient which operates or sponsors interscholastic, intercollegiate, club or intramural athletics at the elementary school level shall comply fully with this section as expeditiously as possible but in no event later than one year from the effective date of this regulation. A recipient which operates or sponsors interscholastic, intercollegiate, club or intramural athletics at the secondary or post-secondary school level shall comply fully with this section as expeditiously as possible but in no event later than three years from the effective date of this regulation.”

institution has expanded participation opportunities for the underrepresented sex in a manner that was demonstrably responsive to their developing interests and abilities, considering a number of factors, including:

- an institution's record of adding intercollegiate teams, or upgrading teams to intercollegiate status, for the underrepresented sex;
- an institution's record of increasing the numbers of participants in intercollegiate athletics who are members of the underrepresented sex;
- an institution's affirmative responses to requests by students or others for addition or elevation of sports; and
- whether the institution has effective ongoing procedures for collecting, maintaining and analyzing information on the interest and abilities of students of the underrepresented sex, including monitoring athletic participation, and assessing interest and ability on a periodic basis.

United States Department of Education, Office for Civil Rights, *Intercollegiate Athletics Policy Clarification: The Three-Part Test- Part Three* (Apr. 20, 2010) [hereinafter *2010 Clarification*]; *1996 Clarification*.

37. In determining whether an institution has a continuing practice of program expansion under Prong 2, OCR will consider a number of factors, including:

- an institution's current implementation of a non-discriminatory policy or procedure for requesting the addition of sports (including the elevation of club or intramural teams) and the effective communication of the policy or procedure to students;
- an institution's current implementation of a plan of program expansion that is responsive to developing interests and abilities; and
- an institution's efforts to monitor the developing interests and abilities of the underrepresented sex, for example, by conducting periodic nondiscriminatory assessments of developing interests and abilities and taking timely actions in response to the results.

*2010 Clarification, 1996 Clarification.*

38. OCR will not find a history and continuing practice of program expansion where an institution increases the proportional participation opportunities for the underrepresented sex by reducing opportunities for the overrepresented sex alone or by reducing participation opportunities for the overrepresented sex to a proportionately greater degree than for the underrepresented sex. *2010 Clarification, 1996 Clarification.*

39. Courts have found that schools must have both a history *and* continuing practice of expanding opportunities for women for Prong 2 compliance. *Mansourian v. Bd. Of Regents of Univ. of Cal.*, 594 F. 3d 1095, 1108. (9<sup>th</sup> Cir. Cal. 2010).

40. Prong 3 of the three-part test requires an examination of whether there is an unmet interest in a particular sport, a sufficient ability to sustain a team in the sport, and a reasonable expectation for competition for a team in the sport. *2010 Clarification, 1996 Clarification.*

41. Whether there is unmet interest and ability will be determined by examining a broad range of indicators, including whether the institution uses non-discriminatory methods of assessing interest and ability, the elimination of a viable team for the unrepresented sex, multiple indicators of interest and ability, and frequency of conducting assessments. *2010 Clarification.*

42. Sufficient interest can be established by student requests to add a sport or elevate a club sport, increases in club or intramural sport participation, responses to interviews and interest surveys, assessments of student athletic participation before entering the institution or in the secondary schools from which the university draws its students, and assessments of participation in intercollegiate sports in the institution's normal competitive regions. *Id.*

43. Ability may be established by the athletic accomplishments and competitive experience of club sports and admitted students, the opinions of coaches, administrators, and athletes, and student participation in other sports. *Id.*

44. Expectation of competition may be established through athletic opportunities offered by other schools with which the school competes or opportunities at other schools in the school's geographic area, including those against which the institution does not compete. *Id.*

45. Under Prong 3 of the three-part test, OCR will also examine an institution's recruitment practices. If an institution recruits potential student-athletes for its men's teams, OCR will examine whether the institution is providing women's teams with substantially equal opportunities to recruit potential student-athletes. *Id.*

46. Title IX also requires schools to provide equal scholarship dollars, in proportion to the number of students of each sex participating in athletics. 34 C.F.R. §106.37(c) (2000). NCAA limits on scholarships per team is not a legal defense; schools cannot blame a third party for sex discrimination; recipients are responsible for equality. Schools choose which sports to sponsor, and some schools have chosen scholarship-dense sports for men, such as football and basketball, and scholarship-light sports for women, such as track.

47. Title IX also requires equal opportunity in the recruitment of student-athletes where equal athletic opportunities are not present for male and female students. Compliance will be assessed by examining the recruitment practices of the athletic programs for both sexes and evaluating whether the financial and other resources made available for recruitment in male and female athletic programs are equivalently adequate to meet the needs of each program. *1979 Policy Interpretation.*

48. Title IX requires schools to provide women with equal treatment, including equipment and supplies; game and practice times; travel and per diem allowances; coaching and

academic tutoring; assignment and compensation of coaches and tutors; locker rooms, practice, and competitive facilities; medical and training facilities and services; housing and dining facilities and services; and publicity. 34 C.F.R. §106.41(a) (2000), *Policy Interpretation*.

49. Lack of money is not a legal defense to sex discrimination. *See, e.g., Roberts Colorado State Univ.*, 814 F. Supp. 1507, 1518 (D. Colo. 1993) (“[A] financial crisis cannot justify gender discrimination.”); *Favia v Indiana University of Pennsylvania*, 812 F. Supp. 578, 585 (W.D. Pa. 1993) (finding that financial concerns alone cannot justify gender discrimination); *Cook v. Colgate University*, 802 F. Supp. 737, 750 (1992) (“[I]f schools could use financial concerns as a sole reason for disparity of treatment, Title IX would become meaningless.”); *Haffer v. Temple*, 678 F. Supp. 517, 520 (1987) (finding that financial concerns alone cannot justify gender discrimination).

50. Monies and in-kind benefits from third-party sources, such as donors, sponsorships, television rights, ticket sales, and student fees, are not a defense to a sex discrimination charge, whether those resources were used to build facilities, fund scholarships, provide equipment and uniforms, or any other benefit of sports participation. None of those sources of money creates a legal defense against sex discrimination. Schools must ensure that their students are not receiving second-class educational opportunities because they are female. *See* 20 U.S.C. § 1687 (2005); *See* Office for Civil Rights, *Department of Education, Further Clarification of Intercollegiate Athletics Policy Guidance Regarding Title IX Compliance* (June 11, 2003), *Cohen v. Brown Univ.*, 809 F. Supp. 978, 996 (D.R.I. 1992) (concluding that “all monies spent by Brown’s Athletic Department, whether originating from university coffers or from the Sports Foundation [booster club] must be evaluated as a whole under § 106.41(c)”).

51. It is *Champion Women’s* experience that most athletes and former athletes are acutely aware of all the ways they are treated as second-class within their athletics department, because they are women. As NIL monies become more available, equal promotion and publicity will be important for female athletes. *Champion Women* asked current collegiate athletes what equality would look like under this list. Here’s what the athletes came up with:

- i. Men’s and Women’s sports would be equally featured, with equal prominence, on school and Athletic Department websites and social media.
- ii. Schools would invest equally in cameras and production equipment for Women’s and Men’s sports.
- iii. Schools would optimize Google searches for their Men’s and Women’s teams to receive equal search results.
- iv. Women’s and Men’s sports would employ an equal caliber of talent in their sports information and marketing departments, and they would be paid and promoted equally.
- v. Women’s and Men’s sports jerseys, apparel, and memorabilia would be equally and easily accessible.
- vi. The needs of Women’s teams would not revolve around Men’s football and men’s basketball teams.

- vii. The Women's and Men's teams would have equal access to dining halls, nutrition, etc. at times equally convenient to both teams.
- viii. Men's and Women's teams would have equal access to optimal practice times when they share facilities.
- ix. Men's and Women's sports marketing efforts would focus on performance; Broadcasters and schools would not focus on a woman-athlete's appearance or sexuality.
- x. Women's and Men's medical care and athletic training access would be equal; Neither male nor female athletes would have priority accessing these resources.
- xi. Schools would hire competition officials of the same quality, with equal compensation, for the Women's and Men's teams.
- xii. Men's and Women's sports performance staff would be equal and would be paid and promoted comparably.
- xiii. Schools would intentionally use language that equally prioritizes Men's and Women's sports.
  - 1. Teams would be referred to as "Women's Basketball" and "Men's Basketball."
  - 2. "Basketball" would not be used to refer to Men's Basketball.
  - 3. Schools would have Social Media handles that referred to men's and women's teams; "Oregon Soccer" would be changed to "Oregon Men's Soccer."

52. Old Dominion's own data, as outlined in the Factual Allegations above, demonstrate that it is not providing equal opportunities for its female students to participate in sports under Title IX's three-part participation test, in addition to equality in scholarship, treatment and benefits, also required by Title IX.

## V. RELIEF REQUESTED

53. *Champion Women* requests that OCR:

- a. Investigate Old Dominion University to determine whether it is discriminating against women; whether it is providing female students with equal participation opportunities in varsity athletics, equal and proportionate athletic scholarship dollars, equal treatment and benefits.
- b. Take all necessary steps to remedy any unlawful conduct that it identifies in its investigation, as required by Title IX and its implementing regulations. Secure assurances of compliance with Title IX from Old Dominion, that include full remedies for all the violations found.
- c. Among other steps to achieve compliance with Title IX, require Old Dominion to add more athletic opportunities for women, accord to additional teams and athletes the full range of benefits accorded to men's varsity teams and athletes, increase recruiting budgets and opportunities, and adopt and implement a plan to achieve compliance with Title IX.
- d. Monitor any resulting agreement with Old Dominion University to ensure that the school achieves full and complete compliance with Title IX throughout its athletic department, now and in the future.

I give OCR my consent to disclose my name and Champion Women's name contained in this letter to others for OCR's investigation of, and enforcement activities related to, the Sex Discrimination Complaint.

Respectfully Submitted,

A handwritten signature in blue ink that reads "Nancy Hogshead".
