Lakeland, FL 33801
EMAIL: nmfoster@seu.edu

I. PRELIMINARY STATEMENT

1. This complaint is filed by *Champion Women*, pursuant to Title IX of the Education Amendments of 1972, 20 U.S.C. § 1681 *et seq.* (“Title IX”) and the regulations and policies promulgated thereunder. *See* 34 C.F.R. § 106 *et seq.* Title IX prohibits discrimination on the basis of sex in federally funded education programs and activities, including athletics.

2. *Champion Women* is a 501(c)(3) that provides legal advocacy for girls and women in sports.

3. As detailed in the Factual and Legal Allegations below, data submitted by Southeastern University (“Southeastern”) to the Office of Postsecondary Education of the U.S. Department of Education pursuant to the Equity in Athletics Disclosure Act (“EADA”), 20 U.S.C. § 1092, as well as information collected from Southeastern’s website indicates that Southeastern is discriminating on the basis of sex by providing unequal athletic participation opportunities and unequal athletic recruitment funding for its female students.

4. In order to address these disparities, *Champion Women* requests that the Office for Civil Rights (“OCR”) investigate Southeastern to determine whether it is discriminating against women; is Southeastern providing women equal opportunities to participate in varsity sports and equivalent recruitment funding as required by Title IX and, if not, to remedy any unlawful conduct.

II. JURISDICTION

5. The OCR is responsible for ensuring compliance with Title IX and receiving information about, investigating, and remedying violations of Title IX and its implementing regulations and guidelines. 34 C.F.R. §§ 106.71, 100.7.

6. *Champion Women* has not filed this complaint with any other agency or institution.

7. As Southeastern currently violates Title IX’s athletic equity requirements, this complaint is timely.

III. FACTUAL ALLEGATIONS

8. Southeastern receives federal financial assistance and is therefore prohibited from discriminating on the basis of sex pursuant to Title IX. It is an NAIA school in Florida with 4534 students.

9. Data submitted by Southeastern to the U.S. Department of Education pursuant to the EADA that is publicly available on the Office of Postsecondary Education website for

academic years 2003-04 through 2021-2022 indicates that Southeastern is not currently and has not in the past been providing female athletes equal opportunities to participate in athletics under Title IX’s three-part participation test.

Year	Undergraduate Enrollment				Athletic Participation				
	Men	Women	Total	Percent Women	Men	Women Prong 2: This # should Rise Continuously and Steadily Over Time, Without Going Backwards	Total	Percent Women	Female Athletes Who Would Need to be Added to Achieve
2003-04	719	816	1535	53.16%	73	29	102	28.43%	54
2004-05	832	1019	1851	55.05%	85	52	137	37.96%	52
2005-06	941	1233	2174	56.72%	84	51	135	37.78%	59
2006-07	941	1233	2174	56.72%	75	65	140	46.43%	33
2007-08	1155	1625	2780	58.45%	79	52	131	39.69%	59
2008-09	1010	1465	2475	59.19%	78	54	132	40.91%	59
2009-10	987	1358	2345	57.91%	77	54	131	41.22%	52
2010-11	945	1278	2223	57.49%	78	56	134	41.79%	49
2011-12	872	1157	2029	57.02%	88	51	139	36.69%	66
2012-13	895	1210	2105	57.48%	101	84	185	45.41%	53
2013-14	1119	1352	2471	54.71%	110	90	200	45.00%	43
2014-15	1219	1494	2713	55.07%	235	95	330	28.79%	193
2015-16	1415	1734	3149	55.07%	248	101	349	28.94%	203
2016-17	1671	2160	3831	56.38%	242	101	343	29.45%	212
2017-18	1869	2403	4272	56.25%	255	108	363	29.75%	220
2018-19	2071	2776	4847	57.27%	298	154	452	34.07%	245
2019-20	2046	2866	4912	58.35%	302	150	452	33.19%	273
2020-21	1926	2809	4735	59.32%	335	184	519	35.45%	305
2021-22	1816	2718	4534	59.95%	427	233	660	35.30%	406

10. *Champion Women* has edited the EADA data on its website in just one instance: <https://titleixschools.com/> to remove male practice players who are counted up in the tally as “women”. These male practice players are not female athletes and have therefore been subtracted from the totals in the EADA.¹

11. Southeastern does not and has not provided athletic opportunities to female students in numbers substantially proportionate to their enrollment pursuant to part one of the

¹ See *Champion Women* website for every college and university receiving federal funds: <https://titleixschools.com/2023/05/20/eada-data/> High school data for these schools receiving federal funds is available here: <https://titleixschools.com/2023/06/06/check-your-high-school/>

Title IX participation test. Women are 59.95% of the student body, but just 35.3% of the student-athletes.

12. In 2021-2022, the most recent academic year for which EADA data is available that is not corrupted by disruptions related to Covid-19, Southeastern's participation gap was 406 athletes. In other words, Southeastern must add 406 additional athletic opportunities for women in order to provide athletic opportunities substantially proportionate to enrollment. To put this number into context, 406 additional opportunities for women are enough to add two women's athletic departments; Southeastern currently only has 162 women athletes. Assuming a new team would have an average of 25 athletes – some more, some less – Southeastern would need to add over 16 new women's sports teams.

13. The EADA data and evidence gathered on Southeastern's website show that Southeastern does not have a history and continuing practice of expanding athletic participation opportunities for women pursuant to Prong 2 of the Title IX participation test. See column "Women" under "Athletic Participation" above. The number of women athletes does not consistently increase over time.

14. Over the 19 academic years covered by the available EADA data, for 8 years, from 2004 to 2011, Southeastern did not grow its women's athletics. *Champion Women* cannot know the 28-year history of adding sports between 1975 and 2003, but Southeastern cannot show a history of continuous program expansion that is demonstratively responsive to the growing interests of women in sport, especially when Southeastern started at just 29 opportunities for women in 2003.

15. A review of Southeastern's website did not show any policy or procedure for adding new sports or elevating existing club sports to varsity status. Nor did it reveal any athletic gender equity plan, or any gender equity committee.

16. Southeastern sponsors 10 men's varsity sports (Baseball, Basketball, Bass Fishing, Cross Country, Football, Golf, Soccer, Tennis, Track & Field and Wrestling) serving 351 men, and 9 women's varsity sports (Basketball, Beach Volleyball, Cross Country, Golf, Soccer, Softball, Tennis, Track & Field and Volleyball) serving 162 women.

17. Information available on Southeastern's website suggests that the university is not accommodating the interests and abilities of female athletes as required by part three of the Title IX participation test.

18. Southeastern women participate in the club sports of Softball, Basketball, Soccer, Volleyball, Wrestling, *SEU Camps*, Southeastern, 2023 (last visited August 1, 2023). The existence of these women's club teams indicates that there is unmet interest in women's athletics at Southeastern.

19. Sport Governing Bodies and the NAIA for member schools, make it very easy to see where other competitors are located.²

20. Southeastern is a member of the Sun Conference. Members hail from Florida and Georgia, a large geographic region. Affiliate members are in Alabama, North Carolina, and Mississippi. In this geographic region, Southeastern will have many choices of women's sport to compete against collegiately.

21. The Sun Conference offers championships in Flag Football. Championship teams demonstrate women's interest in these sports and that competition for these women's sports exists in Southeastern's competitive geographic area.

22. Southeastern University is in Florida. In addition to the sports Southeastern is already providing, girls in Florida high schools compete in Bass Fishing, Field Hockey, Wrestling, Flag Football, Swimming & Diving, Water Polo, Weightlifting, Lacrosse, Bowling. <https://www.nfhsnetwork.com/states/FL> These high school programs will provide Southeastern with many women interested and able to compete.

High school-age girls in Sun Conference competitive region compete in numerous club sports, including Wrestling, Badminton, Table Tennis, Team Handball, Sailing, Field Hockey, Fencing, Swimming & Diving, Water Polo, Archery, Field Hockey, Rifle, Triathlon, Ice Hockey, Sport Climbing, Artistic Swimming, Gymnastics, Rowing, and Rugby, and all sorts of combat sports, like Judo, Karate, and Taekwondo, to name a few.

According to NFHS data, girls participate in sports in high numbers across the country: Track and Field leads the way for girls with 486,355 participants, followed by Volleyball

Collegiate Women's Gymnastics <https://www.ncaa.com/sports/gymnastics-women>

(470,488), Basketball (373,366), Soccer (377,838), Softball (377,838), Tennis (191,036), Swimming & Diving (191,036), and Lacrosse (98,014).³

Meanwhile, NCAA schools sponsor far fewer opportunities, roughly less than a tenth of the athletic opportunities: Track and Field (30,425), Volleyball (17,610), Basketball (16,090), Soccer (27,986), Softball (21,478), Tennis, (21,478), Swimming & Diving (12,889), Lacrosse (12,921)⁴

All these metrics demonstrate that there is enormous unmet demand for women to compete in sports and that girls and women have expressed the interest and athletic ability to play.

23. Flag Football, Wrestling, Swimming and Diving are NAIA emerging sports. There are 163 college women's Wrestling programs.

24. A review of Southeastern's website does not reveal the school undertook any athletic interest surveys or other research into interest and competition to support the addition of women's varsity sports. While surveys are never sufficient to deny women sports opportunities, they are often helpful in determining *which sports* the school should add.

25. The failure to provide women with equal opportunities to play impacts the availability of athletic scholarship dollars for women. These are important sources of funding for educational attainment that women are being denied because of their sex. If Southeastern provided its male and female students with the same opportunities to participate, Southeastern would need to add **\$2,318,321** additional athletic scholarship dollars, to balance out the amount Southeastern provides to its male students.

26. If, for some reason, the OCR determines that Southeastern is, in fact, not discriminating against women in providing opportunities in sport, then Southeastern would not need to add additional athletic scholarship aid to women.

27. Southeastern's EADA data further indicates that the university provides inadequate and unequal funding for recruitment of female athletes. In 2021-2022, Southeastern spent \$49,000 on men's recruitment and only \$19,798 on women's recruitment; women were allocated only 28.78 percent of the recruiting budget even though they account for 35.3 percent of the athletic population and 59.95 percent of the full-time undergraduate population. If Southeastern treated women like it does men, women's teams – and women's coaches – would have an additional **\$53,540** in recruiting dollars.

³ See, NFHS, High School Athletics Participation Survey, Conducted By the National Federation of State High School Associations; Based on Competition at the High School Level in the 2022-23 School Year https://www.nfhs.org/media/7212351/2022-23_participation_survey.pdf

⁴ See, NCAA Sports Sponsorship and Participation Rates Report (1956-57 through 2020-21) https://ncaaorg.s3.amazonaws.com/research/sportpart/2021RES_SportsSponsorshipParticipationRatesReport.pdf
Page 86.

28. If, for some reason, the OCR determines that Southeastern is, in fact, not discriminating against women in providing opportunities in sport, then Southeastern would need to add **\$1,927** additional recruiting budgets for women's teams.

IV. LEGAL ALLEGATIONS

29. Title IX provides that “[n]o person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of or be subjected to discrimination under any education program or activity receiving Federal financial assistance.” 20 U.S.C. §1681(a).

30. Title IX regulations prohibit athletic programs from discriminating on the basis of sex in interscholastic, intercollegiate, club or intramural athletics offered by the institution. 34 C.F.R. §106.41(a) (2000).

31. Title IX regulations require institutions that offer athletics programs to provide equal athletic opportunities to members of both sexes to participate in athletics. 34 C.F.R. §106.41(c)(1).

32. Pursuant to the 1979 Title IX Policy Interpretation, compliance with Title IX's equal athletic participation requirement is measured by determining whether the educational institution meets one part of the following three-part test:

1. Prong 1: Whether intercollegiate level participation opportunities for male and female students are provided in numbers substantially proportionate to their respective enrollments; or
2. Prong 2: Where the members of one sex have been and are underrepresented among intercollegiate athletes, whether the institution can show a history and continuing practice of program expansion which is demonstrably responsive to the developing interests and abilities of the members of that sex; or
3. Prong 3: Where the members of one sex are underrepresented among intercollegiate athletes, and the institution cannot show a history and continuing practice of program expansion, as described above, whether it can be demonstrated that the interests and abilities of the members of that sex have been fully and effectively accommodated by the present program.

United States Department of Health, Education, and Welfare, Office for Civil Rights, *Policy Interpretation; Title IX and Intercollegiate Athletics*, 44 Fed. Reg. 71413 (Dec. 11, 1979) [hereinafter *Policy Interpretation*].

33. In determining substantial proportionality under part one of the three-part test, OCR considers the number of opportunities that would have to be added to achieve proportionality and whether it would be sufficient to support another team. If there are a significant number of unaccommodated women, it is likely that a viable sport could be added and therefore the institution has not satisfied part one of the three-part test. United States Department of Education, Office for Civil Rights, *Clarification of Intercollegiate Athletics Policy Guidance: the Three-Part Test* (Jan. 16, 1996) [hereinafter *1996 Clarification*].

34. In 1975, schools were given three years to be in compliance with the equal participation mandate under Title IX. Schools had only one year to end sex-discrimination in all other areas of Title IX's non-discrimination mandate. Only athletics gave schools three years to add athletic opportunities and to stop discriminating against women – or until 1978. That deadline passed 45 years ago. 34 C.F.R. §105.41(d).⁵

It is worth noting how odd Prong 2 is as a legal test, in comparison to other non-discrimination civil rights. For a school to be able to argue that it is still playing catch-up with non-discrimination – exists nowhere else in law. This is especially true 51 years after the passage of Title IX, and 48 years after the passage of the regulations OCR depends on, regulations that were passed by Congress. When a school uses Prong 2, it is admitting that it is not providing women with equal educational opportunities, but that their actions are acceptable, because the school is “improving.” Title IX's Prong 2 allows schools to provide girls and women with less.

35. Therefore, it is understandable that Prong 2 is a strict legal test. In determining whether an institution has a history and continuing practice of expansion under Prong 2 of the three-part test, OCR reviews the entire history of the athletic program and evaluates whether the institution has expanded participation opportunities for the underrepresented sex in a manner that was demonstrably responsive to their developing interests and abilities, considering a number of factors, including:

- an institution's record of adding intercollegiate teams, or upgrading teams to intercollegiate status, for the underrepresented sex;
- an institution's record of increasing the numbers of participants in intercollegiate athletics who are members of the underrepresented sex;
- an institution's affirmative responses to requests by students or others for addition or elevation of sports; and
- whether the institution has effective ongoing procedures for collecting, maintaining and analyzing information on the interest and abilities of students of the underrepresented sex, including monitoring athletic participation, and assessing interest and ability on a periodic basis.

⁵ 34 C.F.R. §106.41(d) “*Adjustment period.* A recipient which operates or sponsors interscholastic, intercollegiate, club or intramural athletics at the elementary school level shall comply fully with this section as expeditiously as possible but in no event later than one year from the effective date of this regulation. A recipient which operates or sponsors interscholastic, intercollegiate, club or intramural athletics at the secondary or post-secondary school level shall comply fully with this section as expeditiously as possible but in no event later than three years from the effective date of this regulation.”

United States Department of Education, Office for Civil Rights, *Intercollegiate Athletics Policy Clarification: The Three-Part Test- Part Three* (Apr. 20, 2010) [hereinafter *2010 Clarification*]; *1996 Clarification*.

36. In determining whether an institution has a continuing practice of program expansion under Prong 2, OCR will consider a number of factors, including:

- an institution’s current implementation of a nondiscriminatory policy or procedure for requesting the addition of sports (including the elevation of club or intramural teams) and the effective communication of the policy or procedure to students;
- an institution’s current implementation of a plan of program expansion that is responsive to developing interests and abilities; and
- an institution’s efforts to monitor developing interests and abilities of the underrepresented sex, for example, by conducting periodic nondiscriminatory assessments of developing interests and abilities and taking timely actions in response to the results.

2010 Clarification, 1996 Clarification.

37. OCR will not find a history and continuing practice of program expansion where an institution increases the proportional participation opportunities for the underrepresented sex by reducing opportunities for the overrepresented sex alone or by reducing participation opportunities for the overrepresented sex to a proportionately greater degree than for the underrepresented sex. *2010 Clarification, 1996 Clarification.*

38. Courts have found that schools must have both a history *and* continuing practice of expanding opportunities for women for Prong 2 compliance. *Mansourian v. Bd. Of Regents of Univ. of Cal.*, 594 F. 3d 1095, 1108. (9th Cir. Cal. 2010).

39. Prong 3 of the three-part test requires an examination of whether there is an unmet interest in a particular sport, a sufficient ability to sustain a team in the sport, and a reasonable expectation for competition for a team in the sport. *2010 Clarification, 1996 Clarification.*

40. Whether there is unmet interest and ability will be determined by examining a broad range of indicators, including whether the institution uses non-discriminatory methods of assessing interest and ability, the elimination of a viable team for the unrepresented sex, multiple indicators of interest and ability, and frequency of conducting assessments. *2010 Clarification.*

41. Sufficient interest can be established by student requests to add a sport or elevate a club sport, increases in club or intramural sport participation, responses to interviews and interest surveys, assessments of student athletic participation before entering the institution or in the secondary schools from which the university draws its students, and assessments of participation in intercollegiate sports in the institution’s normal competitive regions. *Id.*

42. Ability may be established by the athletic accomplishments and competitive experience of club sports and admitted students, the opinions of coaches, administrators, and athletes, and student participation in other sports. *Id.*

43. Expectation of competition may be established through athletic opportunities offered by other schools with which the school competes or opportunities at other schools in the school's geographic area, including those against which the institution does not compete. *Id.*

44. Under Prong 3 of the three-part test, OCR will also examine an institution's recruitment practices. If an institution recruits potential student-athletes for its men's teams, OCR will examine whether the institution is providing women's teams with substantially equal opportunities to recruit potential student-athletes. *Id.*

45. Title IX also requires schools to provide equal scholarship dollars, in proportion to the number of students of each sex participating in athletics. 34 C.F.R. §106.37(c) (2000). NCAA limits on scholarships per team is not a legal defense; schools cannot blame a third party for sex discrimination; recipients are responsible for equality. Schools choose which sports to sponsor, and some schools have chosen scholarship-dense sports for men, such as football and basketball, and scholarship-light sports for women, such as track.

46. Title IX also requires equal opportunity in the recruitment of student-athletes where equal athletic opportunities are not present for male and female students. Compliance will be assessed by examining the recruitment practices of the athletic programs for both sexes and evaluating whether the financial and other resources made available for recruitment in male and female athletic programs are equivalently adequate to meet the needs of each program. *1979 Policy Interpretation.*

47. Title IX requires schools to provide women with equal treatment, including equipment and supplies; game and practice times; travel and per diem allowances; coaching and academic tutoring; assignment and compensation of coaches and tutors; locker rooms, practice, and competitive facilities; medical and training facilities and services; housing and dining facilities and services; and publicity. 34 C.F.R. §106.41(a) (2000), *Policy Interpretation.*

48. Lack of money is not a legal defense to sex discrimination. See, e.g., *Roberts Colorado State Univ.*, 814 F. Supp. 1507, 1518 (D. Colo. 1993) (“[A] financial crisis cannot justify gender discrimination.”); *Favia v Indiana University of Pennsylvania*, 812 F. Supp. 578, 585 (W.D. Pa. 1993) (finding that financial concerns alone cannot justify gender discrimination); *Cook v. Colgate University*, 802 F. Supp. 737, 750 (1992) (“[I]f schools could use financial concerns as a sole reason for disparity of treatment, Title IX would become meaningless.”); *Haffer v. Temple*, 678 F. Supp. 517, 520 (1987) (finding that financial concerns alone cannot justify gender discrimination).

49. Monies and in-kind benefits from third-party sources, such as donors, sponsorships, television rights, ticket sales, and student fees, are not a defense to a sex discrimination charge, whether those resources were used to build facilities, fund scholarships,

provide equipment and uniforms, or any other benefit of sports participation. None of those sources of money creates a legal defense against sex discrimination. Schools must ensure that their students are not receiving second-class educational opportunities because they are female. See 20 U.S.C. § 1687 (2005); See Office for Civil Rights, Department of Education, Further Clarification of Intercollegiate Athletics Policy Guidance Regarding Title IX Compliance (June 11, 2003), *Cohen v. Brown Univ.*, 809 F. Supp. 978, 996 (D.R.I. 1992) (concluding that “all monies spent by Brown’s Athletic Department, whether originating from university scoffers or from the Sports Foundation [booster club] must be evaluated as a whole under § 106.41(c)”).

50. It is *Champion Women’s* experience that most athletes and former athletes are acutely aware of all the ways they are treated as second-class within their athletics department, because they are women. As NIL monies become more available, equal promotion and publicity will be important for female athletes. *Champion Women* asked current collegiate athletes what equality would look like under this list. Here’s what the athletes came up with:

- i. Men’s and Women’s sports would be equally featured, with equal prominence, on school and Athletic Department websites and social media.
- ii. Schools would invest equally in cameras and production equipment for Women’s and Men’s sports.
- iii. Schools would optimize Google searches for their Men’s and Women’s teams to receive equal search results.
- iv. Women’s and Men’s sports would employ an equal caliber of talent in their sports information and marketing departments, and they would be paid and promoted equally.
- v. Women’s and Men’s sports jerseys, apparel and memorabilia would be equally and easily accessible.
- vi. The needs of Women’s teams would not revolve around Men’s football and men’s basketball teams.
- vii. The Women’s and Men’s teams would have equal access to dining halls, nutrition, etc. at times equally convenient to both teams.
- viii. Men’s and Women’s teams would have equal access to optimal practice times when they share facilities.
- ix. Men’s and Women’s sports marketing efforts would focus on performance; Broadcasters and schools would not focus on a woman-athlete’s appearance or sexuality.
- x. Women’s and Men’s medical care and athletic training access would be equal; Neither male nor female athletes would have priority accessing these resources.
- xi. Schools would hire competition officials of the same quality, with equal compensation, for the Women’s and Men’s teams.
- xii. Men’s and Women’s sports performance staff would be equal and would be paid and promoted comparably.

- xiii. Schools would intentionally use language that equally prioritizes Men's and Women's sports.
 - 1. Teams would be referred to as "Women's Basketball" and "Men's Basketball."
 - 2. "Basketball" would not be used to refer to Men's Basketball.
 - 3. Schools would have Social Media handles that referred to men's and women's teams; "Oregon Soccer" would be changed to "Oregon Men's Soccer."

51. Southeastern's own data, as outlined in the Factual Allegations above, demonstrate that it is not providing equal opportunities for its female students to participate in sports under Title IX's three-part participation test, in addition to scholarship, treatment and recruitment requirements.

V. RELIEF REQUESTED

52. *Champion Women* requests that OCR:

- a. Investigate Southeastern University to determine whether it is discriminating against women; whether it is providing female students with equal participation opportunities in varsity athletics, equal and proportionate athletic scholarship dollars, equal treatment and benefits, including equal recruiting budgets.
- b. Take all necessary steps to remedy all discriminatory and unlawful conduct that you identify in your investigation, as required by Title IX and its implementing regulations.
- c. If any violations are found, secure assurances of compliance with Title IX from Southeastern, that include full remedies for all the violations found.
- d. Among other steps to achieve compliance with Title IX, require Southeastern to elevate interested existing women's club teams to varsity status, add more athletic opportunities for women, accord to additional teams and athletes the full range of benefits accorded to men's varsity teams and athletes, increase recruiting budgets and opportunities, and adopt and implement a plan to achieve compliance with Title IX.

- e. Monitor any resulting agreement with Southeastern to ensure that the school achieves full and complete compliance with Title IX throughout its athletic department, now and in the future.

I give OCR my consent to disclose my name and Champion Women's name contained in this letter to others for OCR's investigation of, and enforcement activities related to, the Discrimination Complaint.

A handwritten signature in blue ink that reads "Nancy Hogshead". The signature is located to the right of the silhouette.

Nancy Hogshead, J.D., OLY
